**UNION
BANK
OF CANADA**

With Cash in the Bank
You Can Buy to
Advantage

You know how everything
costs more when you have to
buy on credit. Why not
open a Savings Account
in the Union Bank of Canada, and, with the money in hand,
buy at Cash prices? The discounts will help to swell your bank
balance, and you will have made a good start towards financial
independence.

We now have lots on hand. All
kinds of Lumber and Firewood.

C. H. WAGNER, Manager, Carlstadt.

LOCAL AND GENERAL

A light shower fell Wednesday.
In the midst of life we are in debt.
Tonight is the W. A. hard times
dance.

Most of man's troubles wear
petticoats.

Nine weeks until Christmas. Do
you shopping early!

Dan D. Doyle of Suffield, was in
the busy bazaar last Thursday.

Mrs. Ed. Hull and daughter
Margaret are visiting in Taber.

H. J. Stevens, of Medicine Hat,
was seen on our streets Wednesday.
Chas. Hewston, of Brutton, has
enlisted to go with the second con-
tingent.

Dan O'Keefe took a load of lumber
out, to finish up his barber
shop at Jenner.

Vance Campbell has returned
from Barons to work his land
north of Carlstadt.

The lumber yards report a big
week's business last week in both
lumber and coal.

J. C. Murray, inspector of the
Credit Foncier Loan company, is
here on business.

L. O'Connor of Medicine Hat,
was here last Thursday in his
capacity of License Inspector.

George Russell is home for a
short stay with his family, but will
return shortly to the C.N.R. grade.

Keep the dollar at home. Patronize
home industry, if you hope to
secure employment or patronage at
home.

The horses and machinery of the
Carlstadt Development Co. will be
sold by auction Saturday. See the
ad in this issue.

Jack Howe and Dan O'Keefe, of
Jenner, are in on Tuesday even-
ing to go to the Hat, returning to
Carlstadt the following afternoon.

L. Chilvers, who returned from
Saskatchewan last week, is spend-
ing a few days with relatives at Jen-
ner, before making a trip to the
States.

Mr. and Mrs. A. Cole returned
last Thursday from Maryfield, Sas-
katchewan, where they had been
visiting friends and attending to
business.

H. H. Brown and R. Passmore,
and ladies, of Medicine Hat, were
in Carlstadt one day last week. Mr.
Brown has charge of the relief work
at the Hat.

From the Revelstoke (B. C.)
Review, we learn that H. L. Derr
formerly of Carlstadt, won a silver
spoon as a prize for being the best
marksmen in that city.

T. H. Harris & C. T. Hildahl
were in attendance last week at the
Alberta Farmers' Co-operative Ele-
ctoral Co. meeting held in Calgary,
as representatives of the Carlstadt
local U. F. A.

N. E. Stuart is getting two cans of
extra large potatoes from New
Brunswick, which will arrive about
November 15th. They will be
worth \$1 per bushel. Place your
order now.

Chas. Goddard has returned from
Salvador, Sask., where he went
with some horses for the Colville
Rauch. Mr. Wilson went on to St.
Paul, Minnesota, but is expected
home soon.

One of the largest batches of mail
that ever came into Carlstadt was
that of Monday, when twenty sacks
arrived. Ernie Woolson's motor
truck had to make two trips to carry
the heavy mail to the postoffice.

Miss Nicholson is in attendance
at a Teachers' Convention in Medi-
cine Hat, for the school of this
directorate. The children are en-
joying the holiday until school
opens on Monday.

Reuben R. Armstrong was in
Carlstadt last week on business af-
fairs. He and his father have a farm
machinery agency at Pincher
Creek, and "Reube" reports the
farm industry, if you hope to
secure employment or patronage at
home.

At Suffield, W. B. Hopley brought
suit against James Etheridge, a
negro, for \$25 as locators' fees. J.
W. Clarkson, J.P., found the plain-
tiff not entitled to full amount and
gave a judgment for \$10 and costs.

Much comment and praise was
given The News on its feature page
last week. As one person remarked,
the article on next year's wheat
crop was alone worth the price of
several years' subscription.

H. L. Brown, C. P. R. operator,
spend Sunday afternoon with friends
here. Since being moved from the
Carlstadt station he has been located
at Crowfoot, but is being transferred
to Java, Saskatchewan.

A masquerade ball will be given
by the Ladies' Auxiliary of Suffield
on Friday October 30th, 1914, at
Suffield Hall. Proceeds to be given
to Canadian Patriotic Fund, Good
Music. Everybody come and have
a good time.

A vote on prohibiting the manu-
facture and sale of alcoholic liquors
in Alberta has been allowed by the
Alberta Parliament. The vote will
be taken next June. An active cam-
paign is being planned both by the
"wets" and the "drys."

As a result of a little fracas
with his countrymen, Pete Czec-
kanski, an Austrian who lives near
Tide Lake, is under the charge of
the Mounted Police. He will be
tried tomorrow, charged with killing
a neighbor's pig and pointing
a gun at the neighbor.

Among the subscribers of the
Carlstadt News who have renewed
during the past fortnight are: A.
W. Sharp, Peerless; August Orwold,
Tide Lake; Frank Stead, Carlstadt;
L. Chilvers, Jenner; W. T. Mus-
grave, Peerless; L. E. Numenaker,
Peerless; Gordon Hull, Peace River
Crossing; Vance Campbell, Brutton.
New subscribers: Herbert Maynard
Brutton.

Word comes from Davidson, Sas-
katchewan, of the complete recov-
ery of John Bell. It will be recalled
that he was taken from here to the
Medicine Hat hospital, suffering
from anemia, and was not expected
to pull through. Later, when he
took a turn for the better, the family
moved to the neighboring prov-
ince.

Weekly train service on the Em-
press-Basano C. P. R. line started
yesterday.

Constable Thompson has pur-
chased Martin Stubbs' fine black
horse.

Pay your dog tax and keep your
cats at home—or they will "come
home missing."

We omitted last week to mention
the return of George Thompson,
who had been threshing in Dakota.
Rev. Villett, who occupied the
Methodist pulpit Sunday evening,
was accompanied here from Suffield
by Geo. Booth.

A million bushels of seed grain
are to be furnished by the Dominion
government to farmers of Western
Canada next year.

A decree has been issued by
Nicholas, the ruler of Russia, forever
prohibiting the sale of intoxicating
drinks in his country.

Saskatchewan and Alberta won
most of the big prizes at the Inter-
national Dry Farming Congress held
in Wichita, Kansas, last week.

Gordon Hull, of Peace River
Crossing and Dr. Campbell, of
Revelstoke, B.C., spent a few days in
Revelstoke last week, the guests of Ed.
Hull.

Several of Carlstadt's famous fun
makers are reported to be the life
of the C. N. R. grade camps near
Redcliff, during what few idle hours
the men have, and do their best to
keep the crowd laughing. A good
share of the men are from this
district.

One hundred and fifty teams are
now at work on the C. N. R. grade
north of Redcliff. Nearly half of
these teams come from the Carlstadt
district. A few teams with teams
can be used, but they are
now scarce. If they have none,
scrapers can be secured from the
constructors at \$7 and worked out.

Before going down, employment
slips should be secured from H. W.
Johnson.

A real estate deal was recently
made by E. F. Leonard, of Medi-
cine Hat, in trading six town lots
in Carlstadt and some cash, for a
small section of farmland at
Preston, Alberta. Two of the lots
are near the Anglican Church, two
near Dr. McEvoy's residence and
two face the new railway street adjoin-
ing the site of the Farmers' Hotel. A.
M. Morden, of Medicine Hat, is
the new owner.

Do you want a good war map
free? See next week's Carlstadt
News.

Economics may be warranted,
but they had better be effected in
any other department than in the
sales department—the department
of revenue. Don't drop your ad-
vertising.

To date, the relief supplied by
the Dominion Government to set-
tlers has amounted to about \$10,000
in Carlstadt. A. J. Drummond,
the local relief officer, has been kept
very busy. Some few people have
the impression that the office carries
with it a fat salary, but such is not
the case. None of the relief officers
draws over \$25 per month, thus be-
ing the pay attached to the position
here.

MISCELLANEOUS ADS

Charges: 10c per line first insertion, 20c
per line per month. Total charge not to

THURSDAY, OCTOBER 22, 1914.

PROPOSED TO PUT TAX ON UNLUSED LANDS IN ALBERTA

There are twenty million acres of unused land in the provinces of Alberta, and the greater portion of this will be affected by the surtax which the provincial government proposes to place on land of this character, in order to supplement the revenue which have shrunk by about three or four thousand dollars since the beginning of the war.

The bill to tax wild lands will not only mark an important departure in the way of taxation, but is calculated to be of considerable assistance in eliminating to a great extent the holding of land for speculation and thus giving a considerable impetus to the agricultural development of the country.

The amount of the wild or unused land the provinces is not accurately known, but it is thought to be in the neighborhood of 20,000,000 acres. A good deal of this is C. P. R. land and is not taxable, but the greater part of it will come under the scope of the new tax. The difficulties of settling up districts where a large part of the land is held by non-residents, with the result that it is impossible to form school districts and rural municipalities, are continually complained of.

In some parts of the province a man has bought a quarter section only to find that several thousand acres of land in his vicinity are not cultivated and are held by non-residents, with the result that it is impossible to form school districts and rural municipalities.

**WE WANT NOW
A GOOD SALESMAN**

NEW YORK'S OLDEST HOUSE.

Built About 1692 of Dutch Brick Im-

port, paid for by the

board of brewhouse, built to the

size of 122 William street, which is

the oldest house in New York

still standing, built in 1692, and

about of narrow Dutch brick import-

ed from Holland and laid in cement.

When the city opened the street in

1700, the city fathers had to buy it

owning the property and placed

restrictions in the deeds, and as some

domestic developers saw that it

was being improved with buildings at

least two stories high.

There is a legend in the rear of

the house which contains a

reference to the first spot of first

bloodshed in the Revolutionary war.

This section, then known as Green Hill, was

the scene of much skirmishing of

both (British) grenadiers, and almost

two months before the battle of Lexington the Sons of Liberty had

burned the British colonists

wounded and one American killed

and three wounded. The event is

now in history as the battle of Golden

Gate.

Chinese Laundry Tickets.

The laundry tickets at the beginning of each week makes out a batch

of checks in duplicate, to be used as

paid tickets. He will then

put the name of some object

as the sun, the moon, etc. To this he

prefaces the name of the day

when the laundry is to be done,

and then the day when the

laundry is to be paid for.

When the laundry is to be done,

he will give a receipt to the person

who has brought the package of laundry. It

must be presented when the laundry is demanded.

—New York Herald.

Spoken Scotch.

The race of speaking people

is passing away, and one of the last

of the nation's Scotch is

old lady being asked if a person she

had lately seen was "Scotch" an-

swered, "I canna say. Ye a' speak ge-

nerally now that I dinna ken wha's

Scotch."—London Mail.

Tennis the Game of Kings.

The old game of kings. The old

game of existing ball games—it is

undeniable that the game of tennis

was originally the pastime of the

kings and nobles, and it was long be-

fore its descendants became

the game of the common people.

The game reached England from France

and Italy, and by the time of Henry VIII, was an expert at the game.

Henry VIII, was an expert at the game.—London Chronicle.

The Goat.

"Why do you insist on keeping

me as a member of your bridge club?

He plays a wretched game."

A Hint.

Pupil to schoolmaster!—Sir, would you mind taking great care what you draw up my report? My parents suffer

greatly from aches—Please

blame.

LIFE CHEAP IN CHINA.

A Coalie Will Give His Life For \$200

Paid to a Chinese

The most remarkable feature of the

fatalistic Chinese and Japanese char-

acter—the quality which makes them

ten times as well led soldiers—is their

bold view of death. A Chinese who

anywhere can be bought for \$200, paid

to his family, to jump from behind a

mountain and take the place of the qual-

ity which the Chinese have a wish

to cause a scandal and stop shooting

by foreigners in the native districts.

The Chinese have a name of twelve

miles, from Wuhsing to Shantung;

was built in 1876 and all remember

that a native who was a passenger of our

train, which the river was crossed by

the new enterprise deliberately

SCHOOLS OF AGRICULTURE

A class in Carpenter Work at one of the Alberta Agricultural Colleges. This is one of the branches of Farm Mechanics, each school being equipped with a separate building of two stories, having a carpenter shop upstairs and a blacksmith shop below. The former has benches and full carpenter tool equipment, also a woodshop. The blacksmith shop is furnished with forges and all necessary tools for general blacksmithing. Mechanical drawing, building and cement work also are taken up here.

We this week present a feature page regarding the Alberta Schools of Agriculture. With three such schools in various parts of the province, farmers sons and daughters have easy access to the institutions, instruction being free, and board and lodging reasonable.

The schools offer two-year courses in Agriculture and Household Science, each term to extend from about November 1st to March 31st, five months which constitute the slack period on the farm in the West.

Two things have been kept chiefly in mind: First, to give highest consideration to the needs of the boys and girls who purpose returning to the farm, and second, to put on work which is practical. Among the subjects taught are Field Husbandry (the soil, the plant, seed, crops), animal husbandry, veterinary science, dairying, poultry, horticulture, elementary science, farm management, English, mathematics.

The school buildings are large and well lighted. Each contains two lecture rooms, animal husbandry room, science room, dairy, two household science room, a large assembly room, offices and library.

The Dairy rooms are fitted out with equipment for milk testing, for separating and for churning. The kitchens in the Household Science flats are well equipped. The sewing rooms contains tables and sewing machines. There also rooms furnished as dining rooms.

The leading features of the domestic science course were

Students - of
The - Claresholm - School - of - Agriculture

Teachers and Students

The - Olds - School - of - Agriculture

sowing and cooking, but in addition, instruction was given in Hygiene, Sanitation and Home Care of the Sick. Lectures in gardening, poultry and home dairying also are given.

Among the student activities are debates, hockey, football, and simple social functions.

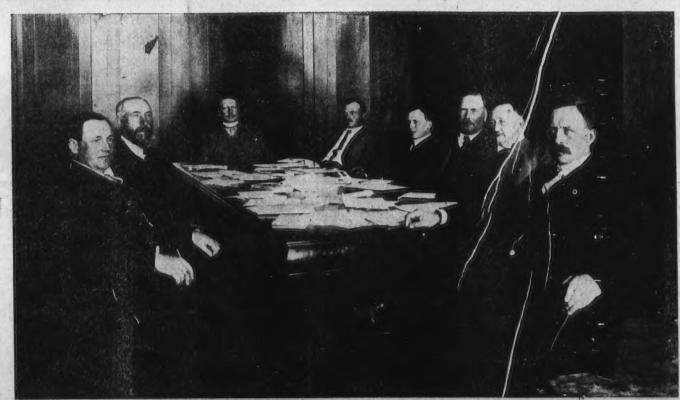

EXTENSION WORK

The members of each staff remain at, or are in touch with the school throughout the year. Their advice and assistance are at the service of any farmer. The purpose of these is two-fold: To serve the farmers of Alberta; and, by arousing interest and co-operation in the work, to create a bond of sympathy between the agricultural community and this institution. The extension work is but a step further in bringing agricultural education closer to the homes of those engaged in the profession of Agriculture.

The school aims to co-operate with, and to aid the Department of Education in its campaign to foster the teaching of Agriculture in the Public and High Schools. Members of the staff are at the service of school teachers in the matter of establishing school or home gardens for the children.

In addition, the members of the schools' staff are ready to visit farmers on request and supply aid in any manner desired.

At one of the schools a large percentage of the students last year belonged to the homesteader class, young men who preferred to work their claims during the summer and study during the winter. Needless to say these young men were banner students, and they return to their farms well pleased with the sacrifice of time and money.

The Board of Agricultural Education of Alberta, in its first session. The Board is composed of the following gentlemen: H. M. Tory, Chairman; John G. Rutherford, Vice Chairman; James Murray, Sullied; E. L. Richardson, Calgary; John H. McArthur, Milnerton; J. C. Drewry, Cowley; Bryce Wright, DeWinton; Frederick West, Vermillion, D. Warner, Edmonton

upstairs.

TO THE PUBLIC

Anyone who contemplates putting up buildings or doing any repair work will find it to their interest to look over our stock and get our prices. We are in a position to supply you with everything along the line of lumber.

If you have received a car of salt cedar posts, you will need some to keep stray cattle from eating what grass and hay you have on hand. Don't wait until too late.

We have put in our winter supply of Galt coal and it is an exceptionally fine lot.

Land Ahead:

With most of the farmers working long hours getting every possible acre into shape for a banner year, with the exception of R. grade plowing, which for most many and with the government's aiding the settlers over and assisting them to get a big acreage into crop, and with wheat at \$1 and going higher, a new optimism has taken hold and is spreading to the farther limits of the district. Even the world-dyed-in-the-wool pessimist is forced to admit that prospects are very bright.

Is It a Mistake?

Did the Village Council make a mistake when they decided to allow a ten per cent discount on all taxes paid within the next thirty days?

Tax notices were issued in July, and five per cent discount was allowed on all taxes paid in August.

And now the taxpayer who has not yet paid up can have the use of a prompt payer had part with his lumber, he can secure an additional five per cent discount.

The Oil of Gladness

"You would be surprised what a difference the snow and rain storm has made with us," remarked an implement company's collector yesterday. "Before, it was the very hardest kind of work to make collections or even get security for our notes. There seemed to be a 'don't care' spirit in the air and the farmers were as bad as any. But now, there is a new feeling. With revised energies on account of the very best of prospects, the farmers are smilingly jumping into work with heart and soul to prepare their land and are quite ready to make arrangements for settling their obligations."

Allies Hold Position--
Review of Week

The war has taken a slight turn in favor of the allies. They have withstood a fierce attack of the German hordes in northern France, and are officially reported to have retaken Ostend and Bruges, Belgian cities which were captured by the Germans. On the north, Russia's soldiers are pressing hard on the kaiser's army. Four German destroyers were sunk this week by an English cruiser on the North Sea. This makes the naval losses about equal. It is announced that approximately 20,000,000 men are now engaged in this conflict, the most horrible ever known. England has only 230,000 men in the field, but is enlisting men as fast as possible, and is sending a continual stream of re-enforcements; she has only begun to fight. On the other hand, the Kaiser threw his whole strength into the fight at the very start, and has no reserve to draw on. Win or lose, France, Germany, and Germany will be bankrupt nations, and the countries depleted of millions of their best men.

"War is hell!" but England and her colonies flinch not; till the German war lord is humbled in the dust and Right prevails, will Great Britain lay down her arms.

Another contingent will be raised by Canada at once. Alberta is expected to raise a thousand men. Recruiting headquarters is Calgary, where men are rapidly coming forward to join the colors.

Canadian firms have secured the contracts for \$2,000,000 worth of saddles for Great Britain, France, and Russia. Another way in which Europe's terrible misfortune will mean money for Canada.

The Germans are the ones who put the hel in hel-met.

Discount on Taxes
and Other Matters
Up to Council

Carlstadt Village Council met in regular session Monday evening, in F. E. McDiarmid's office. Present were W. M. Coster, C. H. Wagner, F. E. McDiarmid, and Sec.-Treas. Starr.

John Knudson was appointed as dog catcher, and will be paid at the rate of 50¢ each to gather up stray dogs; homeless rats also are to be killed, for which Mr. Knudson is to be paid at the rate of \$1.50 a dozen. It is hoped in this way to get rid of the nuisance.

On account of the war and tight money, the Council decided to hustle the collection of taxes by allowing a ten per cent discount on all taxes paid between October 20 and November 30th.

In order to economize, a storage cistern at the well will not be dug this fall. However, a man will be hired to fix up the well and the fire hall.

Bills were ordered paid as follows: Carlstadt News \$5.06, Andy Anderson, lumber work, \$4.40; Starr Lumber Co., \$105.20. The Starr Lumber Co. bill was for planks used in building walls, and will be paid by a for a year, less the payment of their taxes.

H. B. Brigham's bill for \$8 for auditing the village books, and A. J. Drummond's bill for \$12, supplies were laid over until the next meeting.

It was reported that the debenture coupons were returned unpaid. About \$200 is on hand, most of which is required for school purposes.

Another matter was discussed. It concerns the desperadoes who insist on making the nights hideous with yelling and shooting. Various measures were suggested but nothing was done.

AT THE HOTELS

Among those registered at the hotels this week are:

Claus Gjande, A. G. Broden, Gen Lundie, C. C. Hyatt, A. W. Sharpe, H. O. Numenaker, Sam Hellevang, H. N. Pratt, J. K. Nelson, Wm Webdale, Wm Haford, Fred White, H. and R. Lee, Ogle Olson, J. W. Jangenson and wife, Ole Malme, C. W. Ahern, August Orwald, Halvor Anderson, R. Elias, A. Reutges, Wm Stevens, J. E. Goddard, Mr. McCracken, Scott Kenyon; R. Armstrong, Pincher Creek; Henry Ytten, Atlee; J. Bursey, Winnipeg; L. C. Furey, I. C. Jones, S. L. Jones, C. Sykes, H. Sykes, E. J. Monahan.

Buy an Irrigated Farm
FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE

Irrigation makes the farmer independent of rainfall and insures good crops, not occasionally, but **every year**.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures best returns in dairy and meat farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific Railway at prices ranging from **\$35 to \$75 per acre, with twenty years to pay and the privilege of a long grace period**. Irrigation payment at the end of first and second year, and no water rental for first year. Assistance is also given in stocking land in approved instances.

This is the most liberal offer of irrigated farm land on record. Get full particulars from

The Canadian Pacific Railway
